Thanks, Jeff. SFIREG's session description includes a request for information on a definition; I think if you're able to plan remarks on the status of a definition, that'd be welcome. Also for high-level remarks on the work the Agency-level workgroup is doing. Regarding questions, most SFIREG sessions include a space for states to ask questions and I think this would be the case here as well.

Since the SFIREG meeting runs 4 hours, I also do topic-specific schedulers for EPA speakers for their designated session times. I will be doing one for Kimberly and Thuy for this session. If you like, I can add you there as well?

Sandra

I just accepted the invite. Is this just to answer questions or do I need planned remarks, etc.?

Thx

**Subject:** PFAS Update at June 8 Full SFIREG Meeting

Hi Jeff,

You'll have seen an invite from me for an upcoming "Full SFIREG Meeting". In case you're not familiar with SFIREG – they're a group representing State Lead Agencies implementing FIFRA, and the OPP side of the OCSPH house meets with them regularly to talk FIFRA issues (you may of course know this group well, in which case, please disregard!).

At the next SFIREG meeting, PFAS has been requested as a topic and Kimberly can speak to the BEAD lab work, and hoping we can also include you for the definitional questions and any info. you might have on the larger Agency

workgroup. The SFIREG PFAS session description is below, and takes place on June 8<sup>th</sup>, from 12:45 – 1:15 PM. If you're able to join, I would add your name to the agenda and send you a scheduler for this specific time.

12:45 pm

**PFAS and Pesticide Products**

- *EPA OPP will discuss PFAS and pesticide products, registrations, regulations, stop sale issues, working with SLAs and industry, fluorinated high-density polyethylene (HDPE) containers, laboratory testing, definitions, EPA master and inert lists, and the response to the April JWC questions. [EPA Kimberly Nesci, EPA/OPP/BEAD; Jeff Dawson, EPA/OCSP/IO, SFIREG Representatives]*

SFIREG had some unanswered PFAS questions from a previous meeting they're inquiring about here, but I'm sending them the updated PFAS website which contains those questions today.

Might this work for you?

Thanks,

*Sandra O'Neill*
